

I am a daily listener of KLove Positive and Encouraging station. By displacing KLove to a LPFM it will hurt the local community in numerous ways. We look forward to listening to encouraging radio especially for our young and young adult children. The service provided by KLOVE is invaluable especially because of all the negativity happening in our world. It is of the upmost importance that our children be inspired by listening to this radio station as it offers music by young adults as themselves. Please reconsider from moving KLOVE to LPFM this is the most valuable investment we have for our children to make this world to be a better place. Thank you!
